## Profile

---

- Full-stack web developer with hands-on experience in building scalable and responsive web applications.
- I love shipping products more than shipping code turning ideas into real, usable solutions is my favorite part of the journey.

## Projects

---

### Multiple Disease Prediction Platform

*Next.js, Tailwind CSS, Prisma, Streamlit*

- Predicted 5 diseases (diabetes, heart disease, Parkinson's, kidney disease, breast cancer).
- Integrated email/Google authentication with personalized dashboards.
- Deployed at: betterhack.vercel.app

### Hackwave – National Hackathon Website

*Next.js, Tailwind CSS, Shadcn/UI*

- Built website for CDGI's flagship hackathon with registration, timeline, and sponsor showcase.
- Managed UI/UX design and frontend development.
- Deployed at: hackwave-site.vercel.app

### ReadMe Maker – AI README Generator

*Next.js, Tailwind CSS, OpenAI*

- Auto-generated markdown READMEs from user input using OpenAI.
- Enabled live preview with structured sections and intelligent formatting.
- Deployed at: readme-maker-nine.vercel.app

### ROI Maker – Freelance Client Dashboard

*Next.js, Tailwind CSS, TypeScript*

- Designed the UI/UX for a marketing agency dashboard aimed at ROI tracking and analytics.
- Currently developing responsive layouts and planning integration of dynamic forms and charts for client ROI calculation.
- Live at: roi-makers.vercel.app

## Achievements

---

- Participated in multiple hackathons and won at national and college levels, including Better Hack (Pune) and Urja Hackathon (Prestige College, Indore).
- Organized and contributed to national-level hackathons (Dev Hacks, Hackwave).
- Selected for leadership and technical roles in developer communities (EDS, GDG).
